Gender Consciousness and Politics (Perspectives on Gender)

Sue Tolleson Rinehart

Gender Consciousness and Politics (Perspectives on Gender) Sue Tolleson Rinehart

This book examines the emergence of gender consciousness among women as a significant force in American politics. The author bases her argument on an in-depth empirical analysis of data derived from the U.S. biennial National Election studies of 1974 to 1984, the year of the emergence of the so-called gender gap. The author discusses the fact that while feminism is central to womens' political orientation, the simple awareness of gender differences and group consciousness is a powerful force of change.
