Supporting Early Mathematical Development: Practical Approaches to Play-Based Learning Caroline McGrath

Supporting Early Mathematical Development is an essential text for current Early Years practitioners and students, offering an excellent blend of theory and practice that will enable you to provide successful mathematical education for children from birth to eight years old. Charting the delivery of mathematical development in Playgroups, Children's Centres, Nurseries and Primary Schools, it forges links between current practice and fundamental Early Years principles and makes suggestions for creating effective pedagogies in maths teaching.

Promoting mathematical development through play-based learning, this book presents:

- a wealth of practical multi-sensory teaching strategies
- instructional methodologies
- activity ideas incorporating play, books, songs, cookery and the outdoors
- examples of children's work
- advice on translating theory into practice
- questions for reflective practice.

Throughout the book, Caroline McGrath breaks down the complexity of teaching and learning mathematics into simple steps and guides readers through possible gaps in their knowledge, bringing fresh enthusiasm to teaching mathematics. This is an invaluable resource for practitioners and trainee teachers wishing to strengthen their mathematical teaching and professional practice, or for students on a wide range of Early

Years courses.
