This past decade has been one of decline for the United States. This decade will be the decisive decade. The decisions we make and the actions we take in it will determine the future of America and the American dream. Concerned citizens understand this but they have lost trust and confidence in their leaders, institutions and the "governing elite." They are searching for a resource to help them think about and respond to this situation. Renewing the American Dream is that resource. It provides a comprehensive analysis of the American condition using a unique three part framework created by the authors. The book advances a citizen-centered agenda for change. It presents detailed recommendations for renewing the dream and outlines actions that leaders, organizations and individuals can take to participate in the renewal process. It brings the citizen's voice and the businessperson's perspective to the forefront in the national dialogue on America's destiny.
