**Irish Classical Recordings: A Discography of Irish Art Music (Discographies: Association for Recorded Sound Collections Discographic Reference) Axel Klein**

Though the term Irish music typically evokes images of fiddles, flutes, and *Riverdance*, Ireland and its culture have also given rise to a wealth of orchestral music, including compositions ranging from string quartets to operas. In this important new work, author Axel Klein provides much more than a mere discography: he documents and promotes a largely unknown aspect of Irish culture in a unique combination of discographical and biographical information.

Featuring ninety-three recorded Irish composers and forty-three international composers influenced by Irish music, the volume offers the means for scholars and general readers alike to familiarize themselves with a subject to which most of the world, until now, has not been exposed. As most of the music described is currently available on compact disc, Klein's compilation serves as an invaluable resource guide for both academics and amateur enthusiasts.
