Cyberpunk has brought us films like *Blade Runner*, *Tron*, and *The Matrix*, and it has brought us now-classic novels like *Snow Crash* and *Neuromancer*. It continues to be a powerful theme in contemporary literature as writers imagine a gritty, dark, wild, and wicked future where body modification, seedy elements, omniscient corporations, and a few down-luck anti-heroes are always having it out. Inside the covers of this book, readers find stories by the best and the finest cyberpunk writers — from foundational authors like Bruce Sterling and William Gibson to new voices like Cory Doctorow — all of whom write with the fire and zeal that powers the best cyberpunk writing. Here are stories about society gone wrong and society saved, about soulless humans and soulful machines, about futures worth fighting for and futures that do nothing but kill. Welcome to your cyberpunk world.
