The 'Wooden Wonder' was probably the most versatile combat aircraft that operated on all fronts in World War Two and was still giving valuable service in first-line service after 1945 when it enjoyed a limited renaissance both at home, in Germany and abroad until the advent of jet aircraft.

Martin Bowman's well-tried and respected formula of incorporating background information with scores of RAF, Dominion, and overseas pilots and navigators' personal narratives, is employed here once again to great effect. Previously unpublished tales take the reader raid by raid on night-fighter, fighter-bomber, anti-shipping, path finder, photo-reconnaissance and precision bombing operations in the Middle East and jungles of the Far East, where the Mosquito carried out a series of thrilling post-war functions.

The book includes a series of evocative black and white images of the Mosquito in action, which supplement the text perfectly and work to illustrate the might of this iconic craft.
