Protein-Based Films and Coatings

Protein-Based Films and Coatings

This volume presents the most up-to-date and detailed information available on protein-based biopolymer films and coatings. It provides a comprehensive overview of the design, technology, properties, functionality, and applications of biopolymer films and coatings (edible and inedible) from plant and animal proteins. Both widely commercialized and envisioned applications of protein films are discussed, including hard and soft gelatin capsules, microcapsules, collagen casings, and meat and produce coatings. Expert contributors provide thorough reviews of related interdisciplinary research and extensive lists of references.
