How to Find Out in Chemistry: The Commonwealth and International Library: Libraries and Technical Information Division, Volume 3 C. R. Burman

How to Find Out in Chemistry: A Guide to Sources of Information indicates how to make the best possible use of the literature of chemistry.

This book serves as a guide for outlining the careers available to qualified chemists and explaining how such qualifications can be obtained; assembling a library of chemistry books; describing some of the general standards on books, biographies, and theses; acquiring periodical publications; and abstracting journals. Other topics discussed include general and physical chemistry, analytical chemistry, organic and inorganic chemistry, and chemical technology.

This publication is intended for undergraduates and technical college students conducting research on the implications of chemistry.
