Telepathy is one manifestation of the collective phenomena that parapsychologists refer to as ESP. It involves information received by a subject (percipient, recipient, or receiver) from an agent (transmitter or sender), apparently through some type of "mind-to-mind" contact. The role of telepathy in affecting human behavior needs further exploration, as it may be more influential than is commonly suspected. This essay, chapter 4 from *Psychic Exploration*, is devoted to telepathy. The full volume of *Psychic Exploration* can be purchased as an ebook or paperback version from all major online retailers and at [cosimobooks.com](http://cosimobooks.com).
