'An engaging textbook which explores 'low intensity interventions' and modes of delivery whilst placing equal emphasis on the therapeutic value of the relationship between service user and practitioner' - Jane Briddon, APIMH Primary Mental Health Care MSC, University of Manchester

This is a practical and jargon-free introduction to the principles, skills and application of Low Intensity Cognitive Behaviour Therapy (LICBT). Tailored specifically for the low intensity practitioner, it shows you how to deliver the approach to service users presenting with common adult mental health problems such as anxiety or depression, and how to use therapy 'vehicles' like supported self-help.

Beginning at the initial assessment, the book will guide you all the way through the implementation of interventions to the management of endings - with key case examples threading through the book to illustrate each step. Interactive exercises will encourage your self-development, leaving you with a deeper understanding of the approach.
