## Critical Perspectives on the Crisis of Global Governance: Reimagining the Future

This volume provides forward-looking, critical perspectives on the crisis of global governance. Featuring new, original and imaginative reflections, world leaders in law, sociology, politics, economics and international studies, interrogate global governance *as it is* and *as it ought to be*. It asks: What are the principal forces, structures, movements and ideas shaping global governance under conditions of global crisis? And what are the likely prospects for transformations in the theory and practice of global governance? The contributors highlight alternative imaginaries and social forces harnessing new organizational and political forms to counter and displace dominant strategies of rule. In so doing, they suggest that to meaningfully address intensifying economic, ecological and ethical crises of the early 21st century in ways more consistent with greater social justice, democracy and the integrity of the biosphere will require far more effective, legitimate and far-sighted forms of global governance.
