Is this another collection of stupid poems that children cannot use? Will they look hopelessly through this volume for poems that suit them? Will they say despairingly, "This is too long," and "That is too hard," and "I don't like that because it is not interesting"?

Are there three or four pleasing poems and are all the rest put in to fill up the book? Nay, verily! The poems in this collection are those that children love. With the exception of seven, they are short enough for children to commit to memory without wearying themselves or losing interest in the poem.
