## **Risk Assessment and management of raw materials (Guideline)** Mrs Sue Emond

Most food raw materials have potential hazards associated with them - be they chemical, microbiological or physical. This guideline provides specific guidance on the application of risk assessment techniques to identify, evaluate and control hazards associated with raw materials in a food, drink or feed manufacturing environment. The guidance is designed to be compatible with that given in Campden BRI Guideline 42 - HACCP: A Practical Guide.
