Every kid has parents who embarrass them on occasion, but Gabrielle Jordan has more to complain about than most. Her mother, paleontologist Professor Julia Jordan, has dragged her around the world for most of her sixteen years searching for proof of her bizarre—and embarrassing—theory, that creatures of myth and legend existed 50,000 years ago during the last ice age. As for Gabrielle's father, Russell Anderson, well, he's in an asylum for the criminally insane, claiming to be possessed by a demon named Abaddon, which turned him from a mild-mannered scientist into a serial killer.

For Gabrielle, the dawning realization that her mother might not be chasing rainbows and her father really isn't insane is one fraught with danger, adventure, and romance. It will lead her from Rhode Island to the Australian Outback and the distant past of 50,000 years ago, into a world filled with magical creatures.

From the author of Stargate: SG-1 - CITY OF THE GODS
