## Geometric Analysis Around Scalar Curvatures (31)

This volume contains three expanded lecture notes from the program *Scalar Curvature in Manifold Topology and Conformal Geometry* that was held at the Institute for Mathematical Sciences from 1 November to 31 December 2014. The first chapter surveys the recent developments on the fourth-order equations with negative exponent from geometric points of view such as positive mass theorem and uniqueness results. The next chapter deals with the recent important progress on several conjectures such as the existence of non-flat smooth hyper-surfaces and Serrin's over-determined problem. And the final chapter induces a new technique to handle the equation with critical index and the sign change coefficient as well as the negative index term. These topics will be of interest to those studying conformal geometry and geometric partial differential equations.

### From reader reviews:

#### Robert Johnson:

Do you one of people who can't read satisfying if the sentence chained inside straightway, hold on guys this aren't like that. This Geometric Analysis Around Scalar Curvatures (31) book is readable simply by you who hate those perfect word style. You will find the data here are arrange for enjoyable reading through experience without leaving even decrease the knowledge that want to supply to you. The writer regarding Geometric Analysis Around Scalar Curvatures (31) content conveys thinking easily to understand by a lot of people. The printed and e-book are not different in the information but it just different in the form of it. So , do you still thinking Geometric Analysis Around Scalar Curvatures (31) is not loveable to be your top record reading book?

#### Gregory Morrow:

Typically the book Geometric Analysis Around Scalar Curvatures (31) will bring you to definitely the new experience of reading the book. The author style to spell out the idea is very unique. In the event you try to find new book to read, this book very acceptable to you. The book Geometric Analysis Around Scalar Curvatures (31) is much recommended to you you just read. You can also get the e-book from official web site, so you can easier to read the book.

#### Cassandra Sanderson:

Your reading sixth sense will not betray you actually, why because this Geometric Analysis Around Scalar Curvatures (31) reserve written by well-known writer whose to say well how to make book that may be understand by anyone who have read the book. Written within good manner for you, dripping every ideas and writing skill only for eliminate your personal hunger then you still doubt Geometric Analysis Around Scalar Curvatures (31) as good book not only by the cover but also through the content. This is one e-book that can break don't ascertain book by its cover, so do you still needing a different sixth sense to pick this kind of!? Oh come on your reading through sixth sense already told you so why you have to listening to another sixth sense.

#### Elizabeth Daugherty:

On this era which is the greater man or who has ability in doing something more are more valuable than other. Do you want to become one among it? It is just simple way to have that. What you are related is just spending your time not very much but quite enough to experience a look at some books. One of the books in the top listing in your reading list is Geometric Analysis Around Scalar Curvatures (31). This book and that is qualified as The Hungry Inclines can get you closer in getting precious person. By looking upwards and review this publication you can get many advantages.
