## Chapter 016, Rabbit Neoplasia (American College of Laboratory Animal Medicine) Mark Suckow

NOTE: This is a single chapter excerpted from the book *The Laboratory Rabbit, Guinea Pig, Hamster, and Other Rodents*, made available for individual purchase. Additional chapters, as well as the entire book, may be purchased separately.

This chapter presents new data that have been accumulated on rabbit neoplasia from case reports, descriptions of biological aspects of a variety of naturally occurring tumors, and reports of experimentally induced tumor models. Although much of the early data originated from rabbit colonies associated with major research institutions, the growing popularity of domestic rabbits as pets allows an increased ability to accumulate data on the spontaneous incidence of tumors in rabbits that are allowed to live a natural life span. Naturally occurring neoplasms in the rabbit were previously thought to be sporadic but there is evidence for a regular pattern in the incidence of the various tumor types known to be naturally associated with *Oryctolagus*. It is difficult to determine the actual incidence of spontaneous neoplasms in the domestic rabbit. The normal lifespan of the domestic rabbit *Oryctolagus* is 7–8 years, but they are used at younger ages in most research studies and breeding colonies, and are seldom maintained through their natural lifespan. Rabbits are similar to most species in that neoplasia is infrequent in juveniles and young adults.

### **From reader reviews:**

#### **Linnie Martinez:**

Here thing why this specific Chapter 016, Rabbit Neoplasia (American College of Laboratory Animal Medicine) are different and reputable to be yours. First of all studying a book is good but it depends in the content of the usb ports which is the content is as delicious as food or not. Chapter 016, Rabbit Neoplasia (American College of Laboratory Animal Medicine) giving you information deeper including different ways, you can find any guide out there but there is no e-book that similar with Chapter 016, Rabbit Neoplasia (American College of Laboratory Animal Medicine). It gives you thrill reading through journey, its open up your eyes about the thing this happened in the world which is perhaps can be happened around you. You can easily bring everywhere like in park, café, or even in your method home by train. In case you are having difficulties in bringing the paper book maybe the form of Chapter 016, Rabbit Neoplasia (American College of Laboratory Animal Medicine) in e-book can be your alternate.

#### **Alma Young:**

This Chapter 016, Rabbit Neoplasia (American College of Laboratory Animal Medicine) is great e-book for you because the content that is certainly full of information for you who have always deal with world and also have to make decision every minute. This kind of book reveal it information accurately using great coordinate word or we can state no rambling sentences included. So if you are read the item hurriedly you can have whole data in it. Doesn't mean it only offers you straight forward sentences but tough core information with beautiful delivering sentences. Having Chapter 016, Rabbit Neoplasia (American College of Laboratory Animal Medicine) in your hand like having the world in your arm, info in it is not ridiculous one particular. We can say that no guide that offer you world in ten or fifteen minute right but this guide already do that. So , this really is good reading book. Hi Mr. and Mrs. active do you still doubt that?

#### **Nathan Strong:**

In this era which is the greater particular person or who has ability in doing something more are more special than other. Do you want to become among it? It is just simple way to have that. What you need to do is just spending your time little but quite enough to possess a look at some books. Among the books in the top checklist in your reading list is Chapter 016, Rabbit Neoplasia (American College of Laboratory Animal Medicine). This book which can be qualified as The Hungry Slopes can get you closer in turning into precious person. By looking up and review this reserve you can get many advantages.

#### **Linda Barefoot:**

Book is one of source of information. We can add our understanding from it. Not only for students but also native or citizen want book to know the change information of year in order to year. As we know those books have many advantages. Beside we add our knowledge, can also bring us to around the world. By book Chapter 016, Rabbit Neoplasia (American College of Laboratory Animal Medicine) we can get more

advantage. Don't you to be creative people? To become creative person must like to read a book. Just simply choose the best book that appropriate with your aim. Don't become doubt to change your life with that book Chapter 016, Rabbit Neoplasia (American College of Laboratory Animal Medicine). You can more attractive than now.
