How have US economic defence policies promoted its security since 1933?

*US Policies of Economic Warfare, 1933-1991* concentrates on an important and neglected facet of America's fight for survival in the latter half of the twentieth century. It explains how US policy-makers crafted and used instruments of economic statecraft against states that posed vital threats to the survival of the USA. This study situates economic defence policy within the broad context of US foreign policy and explores its response to the totalitarianism of the 1930s, the Second World War and the complex strategic and political developments of the Cold War.
