## Networking for Big Data (Chapman & Hall/CRC Big Data Series)

**Networking for Big Data** supplies an unprecedented look at cutting-edge research on the networking and communication aspects of Big Data. Starting with a comprehensive introduction to Big Data and its networking issues, it offers deep technical coverage of both theory and applications.

The book is divided into four sections: introduction to Big Data, networking theory and design for Big Data, networking security for Big Data, and platforms and systems for Big Data applications. Focusing on key networking issues in Big Data, the book explains network design and implementation for Big Data. It examines how network topology impacts data collection and explores Big Data storage and resource management.

- Addresses the virtual machine placement problem
- Describes widespread network and information security technologies for Big Data
- Explores network configuration and flow scheduling for Big Data applications
- Presents a systematic set of techniques that optimize throughput and improve bandwidth for efficient Big Data transfer on the Internet
- Tackles the trade-off problem between energy efficiency and service resiliency

The book covers distributed Big Data storage and retrieval as well as security, trust, and privacy protection for Big Data collection, storage, and search. It discusses the use of cloud infrastructures and highlights its benefits to overcome the identified issues and to provide new approaches for managing huge volumes of heterogeneous data.

The text concludes by proposing an innovative user data profile-aware policy-based network management framework that can help you exploit and differentiate user data profiles to achieve better power efficiency and optimized resource management.

### **From reader reviews:**

#### **Harley Fabry:**

Book is usually written, printed, or highlighted for everything. You can know everything you want by a reserve. Book has a different type. As you may know that book is important thing to bring us around the world. Close to that you can your reading ability was fluently. A e-book Networking for Big Data (Chapman & Hall/CRC Big Data Series) will make you to become smarter. You can feel far more confidence if you can know about every little thing. But some of you think in which open or reading a book make you bored. It is not necessarily make you fun. Why they can be thought like that? Have you trying to find best book or acceptable book with you?

#### **Sadie McBride:**

As people who live in the modest era should be change about what going on or data even knowledge to make these individuals keep up with the era which can be always change and progress. Some of you maybe will probably update themselves by looking at books. It is a good choice to suit your needs but the problems coming to an individual is you don't know what one you should start with. This Networking for Big Data (Chapman & Hall/CRC Big Data Series) is our recommendation to make you keep up with the world. Why, because this book serves what you want and need in this era.

#### **Laurie Riley:**

In this age globalization it is important to someone to find information. The information will make you to definitely understand the condition of the world. The healthiness of the world makes the information better to share. You can find a lot of sources to get information example: internet, newspaper, book, and soon. You can view that now, a lot of publisher this print many kinds of book. The actual book that recommended to you is Networking for Big Data (Chapman & Hall/CRC Big Data Series) this reserve consist a lot of the information with the condition of this world now. This particular book was represented just how can the world has grown up. The vocabulary styles that writer value to explain it is easy to understand. Often the writer made some analysis when he makes this book. Here is why this book ideal all of you.

#### **William Sinclair:**

You can find this Networking for Big Data (Chapman & Hall/CRC Big Data Series) by check out the bookstore or Mall. Merely viewing or reviewing it could possibly to be your solve trouble if you get difficulties for your knowledge. Kinds of this book are various. Not only by written or printed but also can you enjoy this book simply by e-book. In the modern era similar to now, you just looking from your mobile phone and searching what their problem. Right now, choose your current ways to get more information about your reserve. It is most important to arrange yourself to make your knowledge are still upgrade. Let's try to choose proper ways for you.
